

2010 USCAA Corporate Track & Field Championship San Ramon, CA July 24th and 25th, 2010 Texas Instruments Team Summary

The original California Gold Rush occurred in the mid 1800's, but history will show quite a run on Gold Medals in San Ramon, CA in 2010 by the TI Track and Field Team. But let's start at the beginning.

In early March the weekly team track practice began with the usual handful of rookies and an assortment of veterans. Coach Rio was there again to dispense the workouts as he has done since 1979. As the months progressed it became clear that there were a number of **injuries**, time, or money conflicts looming and we would be without 19 of the 53 team members from the previous year. We had to replace over 1/3 of our team – so the recruiting effort ramped up. To make a long story very short – we ended up with a final team of 52 participants. That's right, a full deck of 52 cards to play.

Like most decks there were a few aces. There were also a number of diamonds – some of them still a little unpolished. But the one thing that would become obvious was that our deck was loaded with heart – big, bold, and brave hearts. I'll highlight just a few of the 52 great stories in the results recap below.

Friday, July 23rd

38 of our members were on the same flight out of Dallas on Friday morning with a 10:20am departure. At 8:07am American Airlines cancelled the flight due to mechanical problems on the inbound flight. It suddenly became a game of 52 card pickup when the deck was scattered to the wind and people were routing all over the country trying to even make it to the meet. Miraculously (and with the heroic efforts of several people such as Cynthia, Ashley, Greg, Ben, and more) everyone managed to arrive by late Friday night. I could sense something special about this team by the way everyone reacted to crisis.

Sat, Jul 24th

The day got an early start at about 3am when after a night of fever and painfully sore throat I drove to the hospital emergency room to discover I had strep throat (I sort of guessed, but they made it official). Since Beth Michalak had strep the last time we ran in San Ramon in 2005 I think we should name it "The San Ramon Strep or Streptococcus San Ramonus"

Women's 5K

Women's 5K takes the top 4 AG scores. We used a displacement strategy by entering 6 runners hoping to knock out one of the other team's 1st and win it outright, even though Mary Kennard would have won the WAVA tiebreaker. A few months ago Heidi Denton asked what it would take to make the team and I told her she was in the AG with one of the better runners from UNUM and she would need a 21:40 5K to win it. She confidently told me she could do it and

at the young age of 49 she turned in a qual time good enough to win. That sort of competitiveness and dedication to a goal is indicative of this group.

Men's 5K

The men score the best 5 runners and I was less confident of winning the WAVA so we stacked 7 guys in for the displacement strategy here too. Bies joined us again and we featured the other half of our first spouse team with Jeff Burrows running right after his TI wife Jill completed the Women's 5K. Brian Schmidt had just run at the USATF Master's Track championship in Sacramento on Thursday with a blazing personal best (at age 41) of 16:29.

Saturday is mostly filled with prelims, but a few finals are held on Saturday.

Sub-Master Distance Relay

In June one of our team members returned from her second tour of duty in Iraq. She returned home on a Friday and was at our Saturday morning track practice before 8:00am. I know she doesn't like the spotlight, but I want to give you a [link](#) to Beth Shockley's many accomplishments anyway. Then there is Luke. I was searching for him in May because I hadn't heard from him this year. Turns out he was summiting Mount Everest! He is one of less than 3,000 people in the world to reach that peak. He followed that feat with his second climb of Denali in Alaska in June. He only trained for the track meet for about 3 weeks.

Executive Relay

We use a high JG threshold for this which appears to be tighter than the other companies. Good legs by all against people nearly half our age. We need some more executive support in the form of runners.

NEW Individual Events

The meet added some individual races this year to try and entice smaller teams to come out and try the meet. There are 10 events, they count for 1/4th of a relay event, and you drop your lowest 2 scores. Just 7 hours after leaving the emergency room I set the record for this new event beating runners from every division. The other person who bested runners from all division was Lita, who returned to the team after a 7 year absence.

Discus

The field events were split out again like they used to be a couple of decades ago. David Thomas, who last threw with us in 1992, made a return and teamed with Lonnie to win the discus (even though both of them specialize in the shot).

High Jump

We had three jumpers with big scores – the top two count toward the team total. Sheri managed to hoist her over the bar up to 4'4". Rio, at age 68, cleared 4'4" to score an amazing 928 points. Lita took a couple of jumps for insurance and also scored well.

Team Title Progress

Our closest competitor the past few years, Booze Allen Hamilton (BAH), lost their funding and their team dropped from 70 people down to 14. It was essentially a two team title race between TI and UNUM Provident, who always fields a very good team. We needed to win 12 first places in the team events to secure the title and we already had 5 secured on Saturday. Rio gave everyone a quick pep talk (i.e. scolding) on handoffs and sent us to bed.

Thanks to the folks who ran prelims to rest a few aces for the finals. You are a valuable part of our team strategy.

4x100

We had an entirely new 4x100 team this year and they certainly made a strong bid to return to their slots for next year. The handoffs (the only race that we do blind handoffs) were very nice and the team blazed to a 50.9 second win.

3 Lap Sprint

We loaded up a solid team with 3 rookies. Todd, who is a summer coop student at TI, had run a 56.7 at the Luke's All Comers meet and he burst out big time with a 53.2 on his 400m leg. Right after this race a friend of mine from another team walked by and said "You guys just never run out of bullets do you."

Men's Mile

A few weeks ago I got an e-mail from Brian Failing, who works at the TI site in Sunnyvale. He saw we were competing in CA and wanted to know if he could join us. He turned in his 800m qual time two weeks ago, and his mile qual time last weekend. He made a big difference as he led the Div II field and Eric kept a close enough distance to the other UNUM runner to win the event.

4x200 Relay

In case you weren't keeping count we won the first 6 events on Sunday and were just one race away from securing the team title – and it wasn't quite noon yet. My antibiotics had kicked in and I was feeling much better on Sunday. I lined up in the 50+ slot for the first time and paused to think about a couple of the great team members who had run that slot in the past – Bo Johnson and Tony Deatherage. I talked to Bo just a week before the meet and he said to tell everyone hello. They would have been proud of our team including our rookie anchor Brandon Mair as we won easily and secured the 2010 team title.

Master's Relay

This one got interesting. I subbed Tim in for me since I was pretty worn out from being sick. I hoped he would have an easy cruise to victory. JJ took the handoff and took off – for about 2 steps before he broke into a 5K pace for his 400. He had a hamstring twinge and that cost him about 10-12 seconds. That put the pressure on Brian, running his 4th final, to get us close. He did it and Cynthia and UNUM had an epic battle down to give the handoff's for the final leg – they were almost dead even. Tim got a better start and pulled out to a lead, but he started feeling it near the end and UNUM was closing. He held them off for the victory.

Sprint Relay

We were short of female sprinters and I sent out a desperate plea just a few weeks back. We picked up Brandy and Liz. Trying to pack in quick sprint training had Brandy a little wounded but this was the last event of the day. They lined up and she came rocketing down the track, handed off, and collapsed holding her sore quads. When I asked her why she was running so fast while wounded she said one of the competitors looked around at the start and told her friend "I got this in the bag." Brandy whipped her. Rookies Liz and Chase did a nice job too in their first meet and we closed out the track events with a win.

TEAM SCORES

So we wrapped our 11th consecutive team title with a great team effort and a pile of promising rookies. It's always so great to see everything come together and watch people reel off great performances. We really had a stacked deck of cards this year. UNUM battled us well, but we edged them out time and time again to post a record number of gold medal winners. BAH put up a good fight with just 14 runners and we hope they are back at full strength next year. Here are the final team totals:
