

# TI Track & Field Team 2022 MECTA Corporate Track Meet Results

In person meets returned in 2022 after a couple of years of virtual meets. Houston planned a regional meet for late April and we put out the call. The interest level was quite underwhelming. After a few weeks it became obvious we could not field a team to cover many of the relay events there, so we pivoted to the MECTA (Maine Corporate Track Association) meet in Maine. MFAB has fielded local teams there for many years and we decided to send as many others as we could afford to supplement our MFAB friends.

The downside, for those in Dallas, was many months of brutally hot training weather. The MECTA meet was July 30<sup>th</sup>. The upside was it would be a pleasant escape to Maine. In person attendance at practice was still lagging and interest was modest, but we had enough people submitting data to select 17 people to attend and combine with the 16 local people. Three of our travelers graciously paid their own way so more people could attend. This would be TI's largest team ever at a MECTA meet.

## **2022 TI Team Stats**

### **Local Members**

- Members = 16 (14 males, 2 females)
- Average age = 44.3

### **Travelling Members**

- TI Track & Field Team members travelling = 17 (7 males, 10 females)
- Average age = 49.3 (youngest = 23; oldest = 80)
- Employees=5; Retirees=6; Alumni=2; Family=3; Adult Children=1

We had participants from: LFAB (Utah), Dallas area facilities, and some retirees from Texas and Colorado.

**And before I get too deep into details here are the people who deserve credit and thanks for their efforts:**

**Rio King** – He's been coaching us every year since 1979. In addition, he is still competing at the highest level. He is a great coach and team member. If there were a Mt Rushmore for the TI Track Team, he would have the most prominent position.

**Michael Reynolds** – Michael is our active TI Employee Co-Captain. He secures the funding and manages the budget. His AMEX card gets a very good workout. He's doing a lot of work behind the scenes that people don't see, but it is vitally important.

**Claude Cirba** – Co-Captain Claude left TI last fall and lost his mother in the spring, so it's been a challenging year. He was also dealing with a knee injury and decided not to compete. Yet, he was out at practice helping pass out singlets, carrying the throw equipment with him, and cheering us on.

**David Tucker** – Dave has organized the TI Team for the MECTA meets for many years. He does a great job getting people out and competing. And he is still a very competitive athlete as well.

**You (all of you)** – Every year I say every person and every event matters. The Maine format allows for even greater participation. If you came out this year, thank you. If you didn't, there is plenty of room for you to join our team next year.

## **We had many outstanding performances. Here are few awards I totally made up:**

**Perfection Award: Rio King.** MECTA allows you to do up to 5 individual events. Rio did 5. He won 5. He broke the meet record in 4 of those. Broke is an understatement – he smashed the records. The longest tenured member of our team is still the most valuable, and one of only two athletes to score 50 points that day (out of 262 participants). And did I mentioned he turned 80 this year?

**Wonder Women (plural):** After Rio's perfect score the next four best scoring team members were the Wonder Women. We watch them and wonder how they do it all so well:

**Julie Rembold:** Julie did the 2 virtual meets, but this was her first time at an in person event. Julie won her first 4 events (5K, 800m, 400m, 1600m) and also tried a 200m and finished 2<sup>nd</sup> for a total of 48 team points. Julie is also a perpetual motion machine – she did an 18 mile run the morning after the meet. Also, she has 5 kids!

**Tori Parkinson:** Tori is a rookie. She is a recent TI acquisition when TI purchased LFAB in Utah. She is also incredibly talented, nice, and funny. She is Julie's twin in a different age group. She won her first 4 events (smashed the 5K record, and won the 800m, 400m, 1600m) and she even tried sprinting and took 3<sup>rd</sup> in the 200m for 46 team points.

**Vonnie Howard:** Vonnie moved into the 60-69 age group this year and put everyone else on notice. She won the 100m, 800m, 400m, 200m individual events and then joined three 50-59 women for a 4x100 relay. We won't talk about her relay handoff because they won anyway (snort), but she's glad there was no video. The relay team got 10 points, so Vonnie's share was 2.5 for a total of 42.5 points.

**Ashley Cox:** Ashley is only in her 2<sup>nd</sup> year with us, but she is a track AND field athlete. She took 2<sup>nd</sup> in the 55m hurdles (and was very close to winning), 1<sup>st</sup> in the Turbo Javelin, 2<sup>nd</sup> in the Discus, 3<sup>rd</sup> in the Long Jump, and she won the 200m (which I'm totally taking credit for, because she beat me in a head to head 200m race the week before as a tune up). She also won for worst sunburn, which she got before the meet on a whale watching excursion. She was really getting into the Maine culture as she looked like a lobster. She earned 42 points.

**Iron Men Awards:** The next 3 highest scorers on our team each did 5 events – and none of them are spring chickens. And I'm not even sure what a spring chicken is, but one would not beat them.

**Rich Doyon:** Rich ran the 55m hurdles (1<sup>st</sup>), 100m (3<sup>rd</sup>), 200m (3<sup>rd</sup>), and did the high jump (2<sup>nd</sup>) and long jump (2<sup>nd</sup>) for 38 points. That's a load of intense events for a guy over 50.

**Russ Haschke:** Russ is in his upper 60's but he took 3<sup>rd</sup> in the 55m hurdles, 4<sup>th</sup> in the 100m, and 3<sup>rd</sup> in the 200m. He won the long jump, and took 2<sup>nd</sup> in the high jump for 35 points.

**Mike Elliott:** My long time running twin Mike Elliott (same age) won the 55m hurdles, took 2<sup>nd</sup> in the 400m, and won the 200m. He then joined two relay teams – the 4x100, which smashed the old record with a decisive win, and the last event of the day, the grueling 4x400 which they also won. 33 team points.

### **It's Not What You Can't Do . . . It's What You Can Do:**

**Mariquita Gordon** was planning a mix of sprint and field events, but her MCL became inflamed in the final weeks. So she shifted gears and did events that didn't involve high speed curves or twisting – even modifying her throwing motions. She still won the shot and turbo javelin, took 2<sup>nd</sup> in the shot and ran on two winning relay teams (4x100m) and the thrower's relay for 32.5 total points.

**Dave Tucker** injured a glut while hurdling a couple of weeks ago in a meet. Undeterred, he switched jumping technique and still won the high jump, took 2<sup>nd</sup> in the turbo javelin, 4<sup>th</sup> in the shot, and joined a winning 4x400 relay at the end of a long day to total 25.5 points.

**Rookie of the Year: Aaron Barrera.** Aaron made almost every practice we had and worked hard. He was targeting middle distance events, but when I sent out the past event data, he looked at and realized he might score better in the sprint and jump events – and he just kept working. At the meet they somehow missed his 100m time – he got no credit for the race. Undeterred, he entered into any event he could. He won the long jump, took 3<sup>rd</sup> in the turbo javelin, took 2<sup>nd</sup> in the 200m, started too high on the HJ and didn't clear, and he didn't get credit for 6<sup>th</sup> in the 100m at 12.2 seconds. He volunteered for the 4x200 relay so others who wanted to run a relay could do it, then he jumped in the 4x400 at the end of a long day. Fittingly, Aaron was the last leg of a 4x400 relay and final TI athlete on the track that day, and he held off another runner to clinch 2<sup>nd</sup> in that final event and just missed winning it. But he's already a winner anyway.

**MVP (Most Valuable People): Pat Bosshart, Laura Melendez, Courtney Costa.** These three paid their own way, so their points to cost ratio was outstanding. Not only did they score very well individually, but they should get credit for the points of the 3 additional people who were able to attend due to their generosity. And Pat and Laura are both at the very top of their age group but still each did 5 events. They will soar in points next year as they will be "youngsters" in the next age group. Also, Laura always brought delicious fruit and treats to practice for us all.

**Hospitality Award: Dave Tucker and Russ Haschke.** People talk about "southern hospitality" but nothing can top Dave and Russ for offering their extra bedrooms and hosting some travelling athletes. And Dave doubled down by hosting all the traveling athletes at his house on Fri night for a welcome gathering and cookout.

**Durable Members:** In addition to the above mentioned, these people did 5 events in one day: Beth Michalak, Heidi Nagel, Becky Angeles, and Ryan Hart. And these did 4 events: Steve Boedeker, Keith Johnson, Steve Rothwell, Pete Dube, and Alex Szczapa.

**How Many Laps?:** Barbara Foster convinced intern Henry Izere to come out. He hadn't submitted any track data, so I penciled him in for a 200m on the 4x200 relay. He showed up just before the 800m race and told me he wanted to do that. A minute later, when he asked me how many laps for an 800m I should have known it would be interesting. He is the recipient of the **Vonnie Howard 800m Rookie Award**. That's when someone's enthusiasm takes them out way too fast in that first lap, and you just watch and hope the second lap will eventually end for them. Henry was too spent to run the 200m leg after that – and he would have done well in the 200m. Come back next year – and train a bit.

**The Dave Tucker Awards** – after reading my initial set, Dave added some additional excellent awards:

- **Pete Dube**, with his 5-yr old Titanium Hip – 4 events and 19 points
- **Mike Elliott** – if you look carefully at his recent MECTA Track performances, he is doing a Benjamin Button and aging backwards in his 60's, faster every year
- **Courtney Costa** - like Henry an exciting rookie and pretty certain her first footsteps on a track were July 30th – 4 events and 16 points, after initial discussion- we hear she could run maybe one 800M?
- **Beth Michalak** – Proves you can score a lot of points on a diet of Pickle ball training, has to be serious Pickle ball where you keep score
- **Alex Boedeker** – Perhaps most underrated, ran incredibly fast times in 800 and 1600M for 16 points
- WAIT, there's one more category, and wouldn't you know Rio gets 1<sup>st</sup> place there as well --- **Who made the most of their visit to Maine?**
  - Rio, 10pts, Brought extended family and stayed several days in spectacular west side Victorian air BNB
  - Ashley, 8, Several day up in Acadia National Park, hey send us a photo?
  - Mariquita, Vonnie, Heidi, 6pts, a few days up to coast in Maine – Bath, etc
  - Russ and Dave, 5, Always a terrific experience to host athletes, I know, technically we don't qualify
  - Julie R, 4, Let's see, ran ~50 miles while in Maine, of course this depends on how you define fun
  - Mike E, 3, It's hard to put into words, Mike just seems to enjoy these meets sooooo much
  - Pat, 2, Pretty sure he and Laura were spending more time in Maine, he'll have to send a photo to prove this
  - Paul W, 1, do I have to explain this?

## The Meet

Maine has a very different meet format than the Houston or National meet. The Houston Regional and the National Meet is almost all relay events. In Maine almost every event is an individual event scored by 10 year age groups. You can do up to 5 individual events or 4 individual events and up to 2 relay events.

The events are all scored in 10 year ago group:

1<sup>st</sup>=10 points; 2<sup>nd</sup>=8; 3<sup>rd</sup>=6; 4<sup>th</sup>=5, 5<sup>th</sup>=4; 6<sup>th</sup>=3; 7<sup>th</sup>=2; 8<sup>th</sup>=1; 9<sup>th</sup> or higher = 0.

Maine has divisions based on employee count. There were 12 teams total – one in Div 2, three in Div 3, and 8 in our division – Div 1. Everyone scores against each other and runs head to head in 10 year age groups. The scoring is not separated by division.

We had good data input from everyone and I was predicting we could score up to 650 points. The TI team in the past has been much smaller and scored in the 300's. That 650 points would put us in the running for the best Div 1 team. Recent history of the TI finishes in Maine:

2021 – 4<sup>th</sup> place Div 1, 380 points

2019 – 3<sup>rd</sup> place Div 1, 371 points

2018 – 4<sup>th</sup> place Div 1, 311.5 points

## Team Results

When you look at the table below note that South Portland is a smaller division team, but had over twice as many participants as any other team. The next 3 teams (all Div 1) had very similar participation numbers.

South Portland had the most points due to their quantity advantage, but in Div 1 TI came out on top. Note the TI Team had the highest points per participant. We greatly exceeded my pre-meet points estimate too.

Team	Div	Indiv Points	Relay Points	TOTAL	Athletes	Points /Person

## Relays

Relay races are great fun, but a 4 or 5 person relay effort win only counts for 10 team points – the same as an individual event. When you split it out per person, it's a small number of points for the physical effort – but again, they are fun to run. We had a few relay teams assemble as the day went on:

**4x200m relay** – requires 1 woman and 1 master (40+)

A few new people wanted to try a relay, so rookies Courtney Costa, Ryan Hart, Aaron Barrera, and Michael Reynolds ran it. Michael is not new, but was pressed into duty in the final minutes when Henry couldn't go after his 800m run. They all ran well and finished 5<sup>th</sup> – but less than 9 seconds from 1<sup>st</sup> place.

**4x100m relay** – run in 10 year age groups.

**W 50-59:** Vonnie moved down an age group and joined Heidi Nagel, Mariquita Gordon, and Beth Michalak for a team. They won easily and were just 2.5 seconds off the record.

**M 60-69:** Dave Tucker had been eyeing this relay record. Unfortunately, he was injured, so we put together a team of Pete Dube, Paul Westbrook, Mike Elliott, and Alex Szczapa. Not only did they win their AG, but they also beat (3) 50-59 teams, (2) 40-49 teams, and (2) 30-39 teams! They broke the record by 4.1 seconds, meaning each of them ran over a second faster than the previous record team – they ran 14.5 seconds per leg.

**4x400m relay** – run in 10 year age groups. Very last event of the day.

**M 50-59:** Our timeless 60-69 groups assembled another relay by all moving down in AG to join Steve Boedeker for a relay team. Mike Elliott, Dave Tucker, and Pete Dube powered through one more event and the team took 1<sup>st</sup> place.

**M 18-29:** Alex Boedeker, Michael Reynolds, Devin Hoskins, and Aaron Barrera powered up for one final event and missed the win by 0.9 seconds. Aaron held off another team by 0.2 seconds to take 2<sup>nd</sup> place.

## Records

We had a few record breakers on the team. Here are the ones I've spotted so far:

Name	AG	Event	New	Old	Improvement
Rio King	80-89	HJ	3' 8"	3' 6"	5%
Rio King	80-89	200m	40.5	44.1	8%
Rio King	80-89	400m	1:43.7	2:04.2	16%
Rio King	80-89	800m	4:06.0	4:31.7	9%
Tori Parkinson	18-29	5K	17:07	18:41	8%
4x100 Relay	60-69	4x100	58.2	1:02.3	7% (Pete Dube, Paul Westbrook, Mike Elliott, Alex Szczapa)

Several others were close to records, but sacrificed an individual record attempt to save energy for multiple events.

Let's slice the data a bit more and break out the individual event points and the share of each relay teams points. Then we'll count individual events and number of relay events. Finally, I calculated points per individual event run:

Name	Total Points	Pts Indiv	Pts Relay	Indiv Events	Relays	Pts / Indiv Event
Rio King	50.0	50.0		5		10.0
Julie Rembold	48.0	48.0		5		9.6

TOTALS		748	48	106	23	7.1

Some of us are scoring at a high level per individual event, but durability is an issue. Some were battling injuries and doing as much as they could. The average age of our team was almost 50 years old, but many defied their age and did a full slate of events.

The full event data is added at the end, but I sliced out the performance data too:

## Thanks

We prevailed in the overall points in the big division and everyone seemed have a great time.

My flight home was so delayed I didn't get home until the following month. Technically, it was just 3 hours late, but my feet weren't off the plane until after midnight, and it was Aug 1<sup>st</sup>! But that delay had a silver lining. I had posted on Facebook about my flight to DFW being late. Right before we had to shut off our phones, one of our former team members from about a decade ago posted that she was on my flight. When we landed I messaged her and she was a few rows behind me. I got to quickly catch up with Tara Larzelere Hadsell, who was an excellent sprinter with us for several years. It was her first trip back to DFW in about 7 years. She has 4 kids now and looked great. It was so nice to see her. On our team you make friends that last a lifetime.

Here are most of your old and new friends together:

And here's an edit to remind you of the location – Maine (Beth Michalak's lighthouse photo in the back):

Thank you to all who work to make this possible and all who step up and participate. You all contributed and you all counted. If you didn't participate this year, join us next year. Age is tough on a sprinter and every year I think about hanging up my spikes. The last 3 years have been a series of foot and leg issues I've been battling, so it would be an easy decision to retire from the track. Then I get to the meet and am inspired by each one of you – not only as athletes, but as people. And winning the 100m race and setting a record in the 4x100m relay also helped convince me to keep coming back as long as I can contribute to the team.
